

Mini Lesson Student Materials

Name: _____

1. Measure the length of the crayon using centimeter cubes.

How long is the crayon?

2. Choose the picture that shows the correct way to measure the dry erase marker. How long is the marker?

Picture A: A dry erase marker with 5 centimeter cubes lined up below it. The first cube starts past the left end of the marker, and the last cube ends before the right end of the marker. There are no gaps between cubes.

Picture B: A dry erase marker with 7 centimeter cubes lined up below it. The first cube is lined up with the left end of the marker, but two of the cubes in the middle overlap each other.

Picture C: A dry erase marker with 6 centimeter cubes lined up below it. The first cube is lined up with the left end of the marker, and each cube is placed end to end with no gaps and no overlaps, reaching the other end of the marker.

3. Measure the length of the glue stick using centimeter cubes.

How long is the glue stick?
