

Mini Lesson Student Materials

Name: _____

1. How long is the crayon in centimeter cubes?

2. Which picture shows the right way to measure the glue stick? Tell why the other pictures are wrong.

Picture A: Centimeter cubes lined up along the glue stick with gaps between some cubes.

Picture B: Centimeter cubes lined up along the glue stick, end to end, with no gaps and no overlaps, starting at the endpoint.

Picture C: Centimeter cubes lined up along the glue stick with some cubes overlapping each other.

3. How long is the dry erase marker in centimeter cubes?
