

Mini Lesson Student Materials

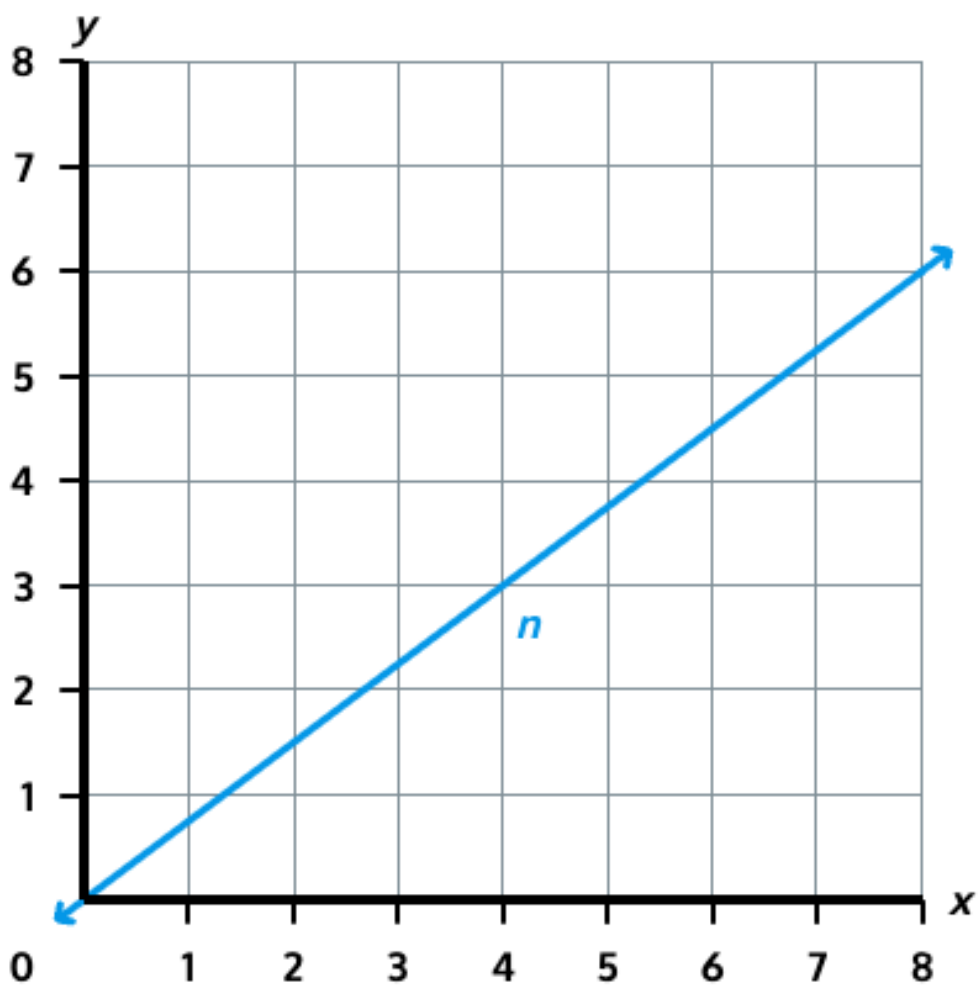

Name: _____

1. Which line is steeper, line m or line k ?

Then find the slope of line m . Use points A and B on line m to help.

2. What is the slope of line n ? Choose two points on the line where grid lines intersect. Draw a slope triangle between them, then find the slope.

3. Lines b and c are parallel. The slope of line b is $\frac{1}{2}$. What is the slope of line c?
